

A decent and well-maintained physical infrastructure with essential amenities is the basis for delivering a better education environment for all the stakeholders.

The college authorities have been continuously taking several corrective measures to facilitate a better learning environment. Well-established policies and procedures adhering to the required standards are followed to augment its existing infrastructure and develop new ones for facilitating new programmes.

Following are the few concrete steps and monitoring mechanisms that the college authorities have adopted for maintaining its various facilities within the college campus:

- **Campus Security:**

- Security personnel's outsourced from a dedicated security agency are deployed 24x7 to safeguard the entire campus, The entire campus is networked with IP based CCTV setup for vigilance.
- An adequate number of different categories of fire extinguishers are installed at appropriate locations within the campus. Every year, firefighting training through experts is being organized to train our support staff to handle unforeseen emergencies.
- Security personnel cabins and a Visitors cabin with a visitor management system are established at college entry gates to check visitors.

- **Basic Amenities:**

- Drinking water: A standard UV water filtration plant is implemented for facilitating the supply of safe drinking water at various locations within the college campus. An adequate number of water purifiers and water coolers are also installed.

- Washroom and Toilets: With the increasing students strength, two additional well-furnished fabricated toilet blocks have been installed at two separate locations within the college campus. Sanitary Vending Machines are also placed in ladies' washrooms.
- Canteen: A separate canteen block is built within the college premises. This facility is outsourced to a professional caterer through a yearly contract for providing hygienic and delicious food at an economical rate.
- Ladies common room: A separate room for girls is being provided for their privacy and comfort.
- **Repairs and Maintenance:**
 - The college authority has appointed an Army Major to administer the day-to-day issues related to infrastructure repairs and college maintenance
 - Any repairs and maintenance tasks related to electrical, plumbing, carpentry, civil and others are addressed through outsourcing the work to professional handymen and contractors. A separate register for registering requisitions and complaints is maintained for appropriate, timely action.
 - Annual Maintenance Contract (AMC) for computers, Fire Extinguishers, Pest Control, Laboratory Apparatus, Printers, Photocopying Machines, Water Coolers, Fans, Air Conditioners and Water Purifiers are outsourced with private agencies.
 - An adequate number of outsourced housekeeping staff has been deployed on a full-time basis to take care of the campus housekeeping jobs, gardening, and campus beautification.
- **ICT Amenities:**

- The entire campus is Wi-Fi enabled for providing internet facility to staff and students.
- The functioning and delivery of services are automated with the ICT setup for facilitating speedy services to students and staff.
- RFID and Biometric system is adopted to maintain discipline and keeping track of students and staff attendance.
- A dedicated, dynamic website and mobile app are designed and maintained through a private vendor
